Snakes & Ladders Board Game

Instructions: You will need at least 2 players and a dice. Cut out the circle tokens on the right here and allocate a token per player. All players start at the bottom of the board on the green arrow. Each player takes a turn to roll the dice and moves along the squares in a zig-zag direction from right to left. If the player lands at the bottom of a ladder, then the player must climb to the top of the ladder moving further ahead in the game. If the player lands on the head of a snake, then the player must slide down the snake to its tail. The aim of the game is to be the first person to reach the trophy at the top left of the game board. Good luck!
